

Keys Energy Services (KEYS) periodically reviews its records to ensure compliance when electrical services are rendered to corporate/commercial customers.

In an effort to protect corporate/commercial customers from unwanted liability, KEYS requires a written listing of those individuals who have authorization to obtain electrical services in your company or corporate name. KEYS maintains a file with the names of those authorized individuals; however, please keep in mind anytime you have a change in personell you must notify KEYS by updating your authorization listing.

Non-compliance with the request for updated information may cause unnecessary delays in KEYS ability to provide you with the level of service you expect.

Should you have any questions or wish to update your authorization listing, please contact Sabrina Hall at (305) 295-1115, or via e-mail at Sabrina.Hall@KeysEnergy.com.
